

COVID-19

POLICIES & PROCEDURES

August 29, 2020

Our top priority will always be ensuring the health and safety of our children and our staff. Klub will continue to diligently follow suggestions from AHS. With that in mind, the following special policies and procedures will be adhered to:

LIMITING NUMBERS

Klub will be voluntarily limiting each center to 30 people (staff and children).

We will not be allowing volunteers (grade 7 and higher), as per AHS guidance.

ENCOURAGING SOCIAL DISTANCE

Klub will put signs up around the room, reminding everyone of the suggested 2m distance. We will design activities and room flow to best meet this goal.

DISINFECTION

Surfaces (tables, chairs, handles) will be disinfected before AND after each session.

Toys will be disinfected regularly. All hands will be disinfected before entering any Klub location.

CALL & COLLECT

Parents are always welcome in Klub, but we are encouraging you to call our centers when you are picking up your children, and we will bring them out to you.

FEES

In the case of Klub closing due to a connected COVID-19 case, Klub will be required to close for a minimum of 72 hours (following the advice of AHS). Families will be credited for any missing time in the following month's fees.

FOOD

All food served at Klub will be individually prepared and served by staff. No communal meals, family style serving, or sharing of food, will be allowed.

MASKS

Klub staff will wear masks at all times. Klub will follow the applicable school's policies when it comes to masks on children.

DAILY HEALTH CHECK

All staff, children, and parents will (as per AHS guidelines) complete the health survey on www.klubcare.com before visiting the center each day, and will not enter if any COVID-19 symptoms are present. Temperatures will be recorded when staff and children check in.
